### HOUSTON MAYORAL CANDIDATES MEET WITH THE HISPANIC BUSINESS NETWORK and SMALL BUSINESSES

**Houston, TX** -- With five candidates in the race to be Houston's next Mayor, it can be difficult to keep up with who stands for what. The Hispanic Business Network will host a public networking event to discover exactly that.

All mayoral contenders have been invited, and the following candidates have confirmed their participation: Annise Parker, Gene Locke, Peter Brown, Roy Morales.

The networking event will give the candidates an opportunity to address issues vital to our City's future. These issues involve a wide range of critical matters that include community planning and sustainability, land use, construction and infrastructure, environmental and economic development, small business and cultural enhancements, public health and safety and livability in our city.

**The evening will include diversified businesses networking with entertainment, and refreshments.**

Our special guest will be Veronica Petrucci performing "Dare to Dream".

**The evening promises to be an event to remember.**
